DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 3-9, 11-34, 36-42, and 44-64 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3-9, 11-34, 36-42, and 44-64 are rejected under 35 U.S.C. 102(e) as being anticipated by Benton et al (U.S. Patent No. 4,926,325).

4. As per claim1, Benton et a teach an image processing apparatus comprising: user information storing means for storing user information related to a seller or a buyer of the image processing apparatus and multiplexing means for multiplexing the user information to an output image wherein the user information is obtained and stored in the storing means when the image processing apparatus is sold through a network (*see the summary of the invention, column 2line 42-4 lin3 62*).

Art Unit: 3621

5. As per claims 3-9, 11-34, 36-42, and 44-64 , they disclose the same inventive concept as claim 1, therefore, they are rejected under the same rationale as claim 1, since Benton teach the inventive concept claimed.
